Full Stack Developer

Experienced Full-Stack Developer with 2 years of expertise in JavaScript, TypeScript, ReactJS, and Vue.js for front-end development, combined with backend proficiency in Node.js and Express.js. Skilled in creating responsive, user-friendly interfaces, integrating APIs, and managing databases like MongoDB and Firebase. Additionally experienced in Flutter and Dart for cross-platform mobile development. Adept at delivering end to-end solutions that optimize performance for web and mobile applications.

KEY COMPETENCIES

Language	Frameworks	Libraries	Testing	Databases	CI/CD &Git	Cloud
• JavaScript	• React	• NodeJS	• Jest	• MySQL	• GitLab	• AWS Lambda
• TypeScript	• Vue	• ExpressJS	• SonarQube	• SQL Server	• GitHub	• AWS S3
• HTML	• Tailwind	• Zod / Yup	• Postman	• Oracle SQL	• Jenkins	• Serverless
• CSS	• Flutter	• Redis	• ESLint	• MongoDB	• Sourcetree	• Containers
• Dart						• Docker

PROFESSIONAL EXPERIENCES

Senior Assistant Software Engineer
July 2024 - January 2025
Advanced World Solutions, Inc.
- Directed the development and maintenance of core front-end frameworks, functionalities, and system operation. Streamlined workflows by creating innovative front-end utilities, optimizing client-side processes
- Resolved legacy front-end issues and aligned them with modern standards while implementing for smooth project execution.
- Created and executed automated unit tests for front-end components to preserve code integrity
- Facilitated effective team communication and swift issue resolution.

Assistant Software Engineer
July 2023 - July 2024
Advanced World Solutions, Inc
- Handled tasks across Web Client development, API integration, bug fixing, and feature enhancement
- Designed and implemented front-end software solutions based on requirements.
- Collaborated in daily team communications to ensure smooth project execution.
- Developed and executed automated test scripts for front-end components.
- Ensured efficient bug resolution and maintained high front-end quality standards.

Junior Software Engineer
July 2022 - July 2023
Advanced World Solutions, Inc.
- Supported the Team Leader in task management and communication with the project supervisor
- Led front-end development, focusing on responsive design and UI performance.
- Conducted design and code reviews with an emphasis on front-end best practices.
- Created detailed design specifications and test plans for front-end components.
- Analyzed existing systems and contributed to front-end feature development.
- Executed manual unit and integration tests on front-end elements.
- Resolved front-end bugs to ensure application reliability and performance.

EDUCATION

Bachelor of Science in Electronics Engineering
Technological University of the Philippines
2018-2022
